This document when properly executed shall constitute a contract between E. I. DU PONT DE NEMOURS AND COMPANY (DU PONT) and SCIENTIFIC CHEMICAL PROCESSING, INC. (CONTRACTOR) covering disposal of waste material from DU PONT's Photo Products Plant, New Jersey.

1. SERVICES - CONTRACTOR agrees to pick-up and process such quantities of waste solvent as described herein as DU PONT elects to send to CONTRACTOR.

Initial quantities (approximately 300 drums) will be vacuumed into CONTRACTOR's truck. DU PONT agrees to align drums, open bungs and dispose of empty drums. CONTRACTOR will perform vacuuming operation.

Subsequent pick-ups will be in drums, approximately 60 drums per truckload (36,000 lbs. net weight). DU PONT will provide labor and equipment to hoist unpalletized drums to CONTRACTOR's flat bed, removable side, truck. CONTRACTOR will position drums on truck.

CONTRACTOR will process this waste material to recover the Trichlorethylene for CONTRACTOR's own use or to sell as an industrial solvent. CONTRACTOR agrees that all waste material, including the drums, generated from its processing will be disposed of in such a manner as to prevent any of the material from entering the environment as a pollutant.

2. DESCRIPTION OF MATERIAL - Average analysis:

Trichlorethylene	66%
Polyester	25%
TDA (Triethylene glycol diacrylate)	5%
Iron oxide	2%
Benzoyl peroxide	1%
surfactants/misc. organics	1%

Waste is stored in closed but unprotected drums, outdoors. It is, therefore, expected some water will be present in the waste at the expense of the trichlorethylene content which slowly evaporates during storage. Layering will occur - water on top, pigment/polyester/organics in the middle, trichlorethylene on bottom. (Each of the two top layers might also contain trichlorethylene.) It is recommended the pigment/polyester/layer be kept wet with trichlorethylene. If allowed to dry or set-up in process lines, tanks or trucks, it will be extremely difficult to remove.

3. COMPENSATION - In consideration for services performed hereunder, DU PONT will pay CONTRACTOR as follows:

Fee: \$2.50/drum or \$0.0455/gallon in bulk
Price includes freight and waste disposal costs.

4. TERMS OF PAYMENT - Net 10 days.

5. SAFETY, PROCESS HAZARDS AND ENVIRONMENTAL CONTROL - Per Exhibit "A", dated 4/30/76, attached hereto and made a part hereof.

6. SITE AND LOCAL CONDITIONS - CONTRACTOR has the right to examine the site in order to acquaint himself with local conditions. It is understood, however, that the CONTRACTOR accepts conditions at the site of the date of contract signing and no allowances will be made afterward for any future error or negligence by CONTRACTOR in this connection.

The work shall be done under the coordination, scheduling and inspection of DU PONT. Any such coordination, scheduling or inspection by DU PONT shall not relieve CONTRACTOR from his responsibilities specified hereunder.

CONTRACTOR shall comply with all safety and health practices required by law and by DU PONT in the performance of work hereunder.

No smoking except in areas as posted by DU PONT. Matches and/or lighters shall not be carried into plant.

Vehicles and mobile equipment are not allowed on the site without prior approval from DU PONT and are to be driven by authorized operators only. The driver is responsible for the safety of all passengers and the stability of materials being hauled or handled by his equipment. All speed limit and other regulatory signs must be obeyed. Give pedestrians the right of way. Shut off the motor and set the brakes before leaving the operator's cab. Wheels must be chocked.

While on DU PONT property, CONTRACTOR's employees shall confine themselves to areas designated by DU PONT and will be subject to DU PONT badge and pass requirements in effect at the work site.

Plant working hours are 8:00 a.m. to 4:30 p.m., Monday through Friday. CONTRACTOR shall not begin any removal operation that cannot be completed by 4:00 p.m. of the same day.

Spillage during loading shall be kept to absolute minimum.

7. OWNERSHIP - Ownership and title to the waste materials to be removed shall vest in and be assumed by CONTRACTOR at such time as said material is loaded in CONTRACTOR's vehicle for removal from DU PONT's plant site. CONTRACTOR assumes full responsibility for and complete liability in connection with CONTRACTOR's recovery, use and/or sale of trichloroethylene and proper disposal of any residue materials.

8. PRECAUTIONS - CONTRACTOR shall perform his services in a careful and workmanlike manner. CONTRACTOR agrees to take all necessary precautions in the handling, transportation, processing and disposal of by-product waste materials in order to avoid injuries to persons and damage to property.

DU PONT has provided CONTRACTOR with a general description of the materials to be removed and DU PONT's procedures for handling such chemical products safely. These procedures are made available to CONTRACTOR for information only and without any representation or warranty as to their adequacy or suitability for use by CONTRACTOR in the service which CONTRACTOR is performing. CONTRACTOR shall be responsible for developing safety procedures applicable to CONTRACTOR's employees and for instructing said employees in such procedures.

9. COMPLIANCE WITH LAWS AND REGULATIONS - CONTRACTOR shall comply with all present and future laws, ordinances, rules and regulations of federal, state, municipal and other governmental authorities applicable to the services to be performed. While on DU PONT's plant, CONTRACTOR agrees to comply with DU PONT's applicable safety standards.

10. INDEPENDENT CONTRACTOR - The employees, methods, equipment and facilities used by CONTRACTOR shall at all times be under its exclusive direction and control. CONTRACTOR's relationship to DU PONT under this agreement shall be that of an independent contractor and nothing in this agreement shall be construed to constitute CONTRACTOR, or any of its employees, an agent, joint venturer or partner of DU PONT.

11. INDEMNITY - CONTRACTOR agrees to take all necessary precautions to prevent any injury to person (including employees of CONTRACTOR and DU PONT) or damage to property (including DU PONT's and CONTRACTOR's property) during

the progress of work covered hereunder and shall indemnify DU PONT against all loss and expense which may result in any way from any act or omission on the part of CONTRACTOR, its agents, employees or subcontractors, except to the extent that any such loss is due solely and directly to the negligence of DU PONT.

CONTRACTOR agrees to indemnify and hold DU PONT harmless from any loss, damage or expense arising out of the use by any third party of the material recovered by CONTRACTOR from the waste material CONTRACTOR picks up from DU PONT and processes hereunder.

12. INSURANCE - CONTRACTOR shall carry, at his expense, insurance of minimum limits as follows:

- (a) Workmen's Compensation - Statutory
- (b) Comprehensive General Liability Bodily Injury \$300,000 and Property Damage \$100,000
- (c) Comprehensive Automotive Liability Bodily Injury \$100,000/\$300,000 and Property Damage \$25,000
- (d) Contractual Liability insuring CONTRACTOR's obligations under the "INDEMNITY" clause above in minimum limits of \$300,000 for Comprehensive General Liability Bodily Injury and Property Damage in minimum limits of \$100,000

CONTRACTOR hereby agrees that such policies shall contain a waiver of subrogation against DU PONT. Certificates of insurance evidencing the coverages required above shall be filed with DU PONT (attention: Plant Buyer) prior to the furnishing of services under this agreement. Such certificates shall provide that the insurer will give DU PONT not less than ten (10) days' prior notice of any change in or cancellation of coverage. In the event any subcontractor is employed, with DU PONT's consent, CONTRACTOR shall provide DU PONT with evidence of the same coverages in the same limits with respect to such subcontractor.

13. SUBCONTRACTING - CONTRACTOR shall not subcontract any of the services covered without DU PONT's written approval.

14. ASSIGNMENT - Any agreement between DU PONT and CONTRACTOR shall not be assignable either in whole or in part without the prior written consent of the other party.

15. TAXES - CONTRACTOR shall be responsible for the payment of all taxes covering services to be performed, including, but not limited to, the payment of all applicable taxes covering its employees.

16. ACCESS TO PREMISES - The access of CONTRACTOR and its employees to DU PONT's premises shall be as determined from time to time by DU PONT.

17. CONTINGENCY - No liability shall result to either party from delay in performance or nonperformance caused by circumstances beyond the control of the party affected, including, but not limited to, act of God, fire, flood, explosion, war action or request of governmental authority, accident, labor trouble or shortage, inability to obtain material, equipment or transportation.

18. TERMINATION - If CONTRACTOR should be adjudged bankrupt or make a general assignment for the benefit of his creditors, or if a receiver shall be appointed on account of his insolvency, or he should fail to make prompt payment for materials or labor, or disregard laws, ordinances or other governmental regulations, or violate any provisions of this agreement, DU PONT may on seven (7) days' written notice to CONTRACTOR terminate CONTRACTOR's services under this agreement.

19. FIRST AID - In the event of personal injury to CONTRACTOR's personnel, DU PONT may make available emergency first-aid treatment and related services. Accordingly, CONTRACTOR shall sign the "Agreement of Indemnification" (Form EN-1796) which shall be attached to and become a part of this agreement.

Attn: V. Murray

This document when properly executed, shall constitute a contract between E. I. DU PONT DE NEMOURS AND COMPANY (DUPONT) and SCIENTIFIC CHEMICAL PROCESSING INC. (CONTRACTOR) covering the disposal of such quantities of waste material containing Trichlorethylene as DU PONT'S Photo Products Plant, Parlin, N. J. contracts to submit for the period May 1, 1976 through April 30, 1978.

SERVICES - CONTRACTOR agrees to pickup and dispose of drummed waste. Initial pickups will require approximately 300 drums (4-6 Tanktruck loads) to be vacuumed into CONTRACTOR'S tanktruck. DU PONT will align drums, open bungs and scrap empty drums at no charge to CONTRACTOR. CONTRACTOR will perform vacuuming operation. Subsequent pickups will be in drums, approximately 60 drums per truckload, approximately 36,000 lbs. net weight. DUPONT will provide labor and equipment at no charge to CONTRACTOR to hoist unpalletized drums to CONTRACTOR'S flat bed (removeable side) truck. CONTRACTOR to position drums on truck.

COMPENSATION - In consideration of services performed hereunder, DUPONT will pay CONTRACTOR as follows:

Disposal fee - \$2.50 drum or \$.0455 gal. bulk - prices include freight.

Terms of Payment - Net 10 days.

INVOICES - Mail 5 copies, identified with DF-27597 to E. I. Du Pont Photo Products Dept., Parlin, N. J. 08859, Attn: Barry R. Williams.

GENERAL DESCRIPTION OF WASTE

The following analysis give approximate weight percents:

25% Polyester	1% Benzoyl Peroxide
2% Iron oxide	5% TDA (Triethylene glycol diacrylate)
1% Surfactants/misc. organics	66% Trichlorethylene

Approx. 14 lbs./gallon

* Waste is stored in closed but unprotected drums, outdoors. It is therefore expected some water will be present in the waste at the expense of the trichlorethylene content which slowly evaporates during storage. Layering will occur - water on top, Pigment/Polyester/Organics in the middle, trichlorethylene on bottom. (Each of the two top layers might also contain trichlorethylene). It is recommended the Pigment/Polyester layer be kept wet with trichlorethylene. If allowed to dry or set-up in process lines, tanks or trucks it will be extremely difficult to remove.

5. SAFETY, PROCESS HAZARDS, ENVIRONMENTAL CONTROLa) Personal protective equipment recommendations.

The following recommended equipment should be worn at all times when handling waste:

Eyes and Face	-	Chemical safety goggles and plastic face shield
Skin	-	Clothing made of neoprene
Respiratory	-	Self-contained breathing apparatus, positive pressure hose masks, air-line masks

CONTRACTOR'S truck drivers should wear neoprene gloves and apron and chemical safety goggles with face shield when vacuuming waste from drums or loading drums on truck.

b) First Aid Recommendations

Ingestion - Medical attention should be obtained

Inhalation - Remove person from contaminated area. If breathing has stopped, artificial respiration should be started immediately. Medical attention should be obtained.

Skin Contact - Remove all contaminated clothing. Wash all affected areas with warm water and soap. In serious or persistent cases, medical attention should be obtained.

Contact with Eyes - Wash eyes promptly with plenty of water for at least 15 minutes. Medical attention should be obtained.

SAFETY, PROCESS HAZARDS, ENVIRONMENTAL CONTROL (Continued)

c) Possible Hazards

The waste contains several major components (see para. 4 of this Contract). The Polyester, Iron Oxide and Surfactant/misc. Organics components are not known to be harmful. The water component, if present, can contain trichlorethylene so the hazards of trichlorethylene predominate. The remaining components and recommendations for handling safely follows:

Benzoyl Peroxide (BP) - although present only in an amount approximately 1% by weight and therefore well diluted, recovery processes (such as distillation) have the potential to concentrate the BP, possibly to critical levels if allowed to proceed to dryness. Dry BP is sensitive to impact shock, friction and is very flammable. Decomposition of dry BP, when heated under confinement, can proceed with explosive force. Residues containing BP should be kept wet for safe handling.

Triethylene Glycol Diacrylate (TDA) - TDA is a skin sensitizer producing a delayed dermatitis reaction similar to poison ivy (rash, blisters, general irritation). AVOID CONTACT. Wash frequently with soap and water during handling.

Trichlorethylene - Trichlorethylene is toxic by inhalation, by prolonged or repeated contact with the skin, eyes or mucous membrane or when taken by mouth. Alcoholics, persons who are excessively over or underweight and those with disease of the lungs, liver, kidneys, or heart, with high blood pressure or with chronic skin conditions should not be exposed to trichlorethylene. Avoid prolonged or repeated breathing of vapor.

The National Cancer Institute (NCI) has issued a memorandum of alert regarding the possible carcinogenicity of trichlorethylene.

Contact with strong alkalies (such as Sodium Hydroxide) and alkali metals should be avoided since explosive mixtures can result. Open flames or arcs should be avoided due to toxic decomposition products such as hydrogen chloride.
